To the Honorable Mayor, Members of the Governing Council, and Citizens of the Municipality of Monroeville:

State law requires that every general-purpose local government publish within six months of the close of each fiscal year a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended December 31, 2020.

Management assumes full responsibility for the completeness and reliability of the information contained in this report based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Hosack, Specht, Muetzel, & Wood LLP, Certified Public Accountants, have issued an unmodified (“clean”) opinion of the Municipality of Monroeville financial statements for the year ended December 31, 2020. The independent auditor’s report is located at the front of the financial section of this report.

Management’s discussion and analysis (MD&A) immediately follows the independent auditor’s report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

REPORT COMPOSITION

This report contains three sections:

Introductory:

Includes this transmittal letter highlighting significant 2020 financial and management items, the Certificate of Achievement for Excellence in Financial Reporting awarded by the Government Finance Officers Association (GFOA) for the 2019 CAFR, an organization chart and a list of principal officers.

Statistical: Includes historical information for financial trends, revenue capacity, debt capacity, demographic and economic indicators and selected operating statistics for the Municipality

PROFILE OF THE GOVERNMENT

The Municipality of Monroeville, Allegheny County, Pennsylvania was incorporated as the Borough of Monroeville on January 25, 1951. On January 5, 1976, the Municipality became a Home Rule Charter Municipality pursuant to the provisions of the Home Rule Charter dated March 5, 1974. The Charter was subsequently approved by the electorate of the Municipality on May 2, 1974.

The Municipality is located approximately thirteen (13) miles east of the City of Pittsburgh in Allegheny County, Pennsylvania, with Pittsburgh being the county seat of Allegheny County, Pennsylvania. The Municipality is bordered to the north by the Municipality of Plum, to the south by the Townships of North Huntingdon and North Versailles, to the east by the Municipality of Murrysville and the Township of Penn, and to the west by the Municipality of Penn Hills and the Township of Wilkins.

The Municipality was originally a rural and agricultural area. Tremendous development began with the extension of the Pennsylvania Turnpike in the early 1950s. Today, the Municipality encompasses a total land area of 19.5 square miles, of which approximately 97 percent is now developed. According to the Pennsylvania State Tax Equalization Board, the land use assessment of the Municipality is classified approximately 47% residential, 49% commercial, 1% lots, and 3% industrial. Monroeville has entered a post-suburbia stage of its life as a community where commercial growth has ebbed over the last two decades.

The population of the original Municipality of Monroeville was 8,000. The 2010 population of the Municipality was 28,386. This represents a population increase of 20,386 people, or 254.83% increase over the last 60 years.

Pursuant to the provisions of the Home Rule Charter, the Municipality of Monroeville is governed by a Mayor and a seven-member Municipal Council. Each of the seven members of the Municipal Council is elected by ward throughout the Municipality to serve four-year terms of office. The terms of office of the council members are staggered so that the members representing the odd-numbered wards are elected two years apart from the members representing the even-numbered wards. One of the seven members of the Municipal Council is designated as the Deputy Mayor. The Charter further stipulates that the Mayor is permitted to cast a vote relating to legislative matters only in the event of a tie.

The daily operations of the Municipality are delegated by the Mayor and Municipal Council to the Municipal Manager. According to the organizational structure for Monroeville Municipal Government, contained in the introductory section of this report, the Municipal Manager is responsible for the following major government functions: General Government Services, Public Safety, Cable Television, Public Works, Community Development, Library Services, Recreation, Parks and Human Services and the Senior Citizen's Center. The Municipal Manager is also responsible for the services provided by the Municipal Solicitor and Municipal Engineer.

The Council of the Municipality of Monroeville is required to adopt the budget as presented if amended, by ordinance on or before the thirty-first day of the twelfth month of the fiscal year. If it fails to adopt the budget by this date, the amounts appropriated for current operation of the current fiscal year shall be deemed adopted for the ensuing fiscal years on a month-to-month basis, with all items in it are pro-rated accordingly, until such time as the Council adopts a budget for the ensuing fiscal year. The budget is prepared at the fund level.

LOCAL ECONOMY

The Municipality is the home of several major employers representing such diverse industries as healthcare, research, engineering and retail services. Forbes Regional Hospital, UPMC and Procare Pharmacy are the top three largest employers. Procare Pharmacy is a distribution center for CVS Pharmacies in Western Pennsylvania. Bechtel is currently the fourth largest employer which is an engineering/research firm for the US Navy. Numerous full-time and part-time jobs are provided to area residents by Monroeville Mall, and Miracle Mile Shopping Center. Additionally, Monroeville is located in close proximity to the Greater Metropolitan Area surrounding the City of Pittsburgh and many residents of the Municipality are employed throughout the region.

The Municipality and the region continue to grapple with many of the same structural and funding deficits that challenge many municipalities. Challenges still exist with long-term financial budgetary stability for the Municipality, but is not to say that the Municipality and the Region have not realized significant achievements. Pittsburgh area stayed on par with the total United States for unemployment from June 2020 to June 2021. The unemployment rate for the Pittsburgh area was 5.6% whereas the United States was 5.9%. In the Pittsburgh metropolitan area, leisure and hospitality services had the largest employment gain from May 2020 to May 2021 at 39.1 thousand or 64.4%. (US Bureau of Labor Statistics, July 2021). This is due to the impact of COVID-19 on the national and regional workforce as normal life activities return.

Real gross domestic product for U.S. metropolitan areas grew in the fourth quarter of 2020 by 4.3%; the latest new release available (U.S. Bureau of Economic Analysis). By the first quarter 2021 the GDP was up 6.4% reflecting continued economic recovery related to the COVID -19 pandemic. Pennsylvania had a 6.0% increase through the first quarter 2021, second quarter is not available at the printing of the report. Pittsburgh had a per capita personal income of \$68,000 and is 113% of the national average of \$59,700 (BEA, PCPI March 2021).

Local housing is another encouraging sector. Building Department Permits issued in the Municipality increased slightly from 2,174 in 2019 to 2,217 in 2020. Permit revenues however decreased to \$333,287 in 2020 from \$392,428 in 2019. The \$59,141 reduction is because of permits issued.

Perhaps most importantly in terms of long-term growth, the Region's population of 20 to 34 year-olds grew by 7% over the past five years, and it is expected to grow another 8% by 2020, according to an economic forecasting model run by researchers at the University of Pittsburgh's Center for Social and Urban Research. This is truly a stunning reversal of fortunes when one considers that three decades ago the Region was losing 50,000 more people than it was attracting each year.

The Region also benefits from a highly educated workforce. More than 48% of the worker's aged 25-34 have a bachelor's degree or higher. That ranks fifth highest in the nation, behind Boston, San Francisco, Washington D.C. and Austin, according to Current Population Survey data compiled by the Census Bureau and the U.S. Bureau of Labor Statistics.

LONG TERM FINANCIAL PLANNING

An unassigned fund balance in the general fund of \$19.5 million (58.6% of total general fund revenues) falls well above the policy guidelines set by Council for budgetary and planning purposes (i.e., 10.0 percent of total general fund revenues).

Municipal Council has continued the strategic plan for 2020 & 2021 as follows:

- Goal 1-Develop and diversify the business structure with the objectives to expand the commercial professional services tax base (i.e. information and technology, finance and insurance and health care services) and to build strong relationships with economic strategists.
- Goal 2- Modernization of zoning regulations with the objectives to provide regulations that can be easily understood by the general public and to minimize impact to existing residential developments.

- Goal 3- Neutralize traffic congestion with the objectives to provide a municipal “hub and spoke” transit system serving business U.S. Route 22, Old William Penn Highway, PA Route 286, Monroeville Road and PA Route 130 and to include large, wide sidewalks complemented with street furniture, decorative lighting and trees, and to include street space for vehicle, bicycle and pedestrian transportation.
- Goal 4- Continue the implementation of the Joint-Comprehensive Plan with Wilkins Township and Churchill Borough to produce efficiencies with economic development, zoning, recreation and shared services.
- Goal 5- Continue to implement the Municipal Separate Storm Sewer System (MS4) program as it relates to implementation of a flat fee of \$120 per year for all property owners to repair an aging storm sewer system infrastructure.
- Goal 6 – To conservatively estimate revenues based on like municipalities in the Pittsburgh region due to the economic effects of COVID-19, and to expend monies commensurately.

RELEVANT FINANCIAL POLICIES

It is the Municipality’s policy to fund current expenditures from current revenues whenever possible; use of fund balance for other than capital and non-recurring expenditures will be clearly specified; debt financing and intergovernmental revenue will be for capital or nonrecurring expenditures. Revenues will be estimated conservatively, but realistically. The use of any debt financing has been discontinued due to high debt service payments (9.84 % of General fund revenues).

As described in the notes to the financial statements, the Municipality has a pay-as-you-go policy for the accrued sick time. During 2008, the Municipality authorized the creation of a Trust to fund Other Post-Employment Benefits (OPEB). The Municipality did not contribute to the Trust during 2020.

MAJOR INITIATIVES

The Municipality has undertaken major initiatives in recent years that include the update of the comprehensive plan, and the municipal codebook; analyzing the Municipal Separate Storm Sewer System (MS4) program and evaluating how to pay for a Five Year (5) Capital Improvement Program (CIP):

Comprehensive Plan

The three communities of Monroeville, Churchill Borough and Wilkins Township sought to identify ways they can work together and independently to pursue solutions to current and anticipated challenges and to build on strengths.

The three neighbors collaborated to produce an **implementable** comprehensive plan for creating changes that residents and officials desire while maximizing use of resources.

They chose six working areas as the primary focus of the implementable plan.

- Strategic communications
- Shared services
- Recreation
- Trails and connectivity
- Property maintenance
- Redevelopment

About 90 percent of an implementable comprehensive planning process is dedicated to identifying the Key Issues through an in-depth public process; conducting targeted research needed to thoroughly understand the issues and how to address them; articulating a future vision; and developing action-oriented strategies for attaining that vision. Another critical component of the process is “capacity-building” to ensure the community can continue the work of the plan after the consultant’s part is completed.

The fundamental difference between a traditional plan and an implementable plan is the shift in focus from a goal of completing a plan report (traditional plan) to a goal of implementing changes in the community, with the plan as a way of facilitating that process (implementable plan).

The idea of an Implementable Comprehensive Plan appealed to professional staff members and elected officials of Churchill, Monroeville and Wilkins, who all wanted tangible action steps that help solve real problems.

Municipal Code

The Municipal Code is the authoritative book of the municipality. Within it contains all the “laws of the land” from land use management to personnel provisions. From time to time, the code of a municipality needs updated to purge ordinances that are either outdated with respect to the Municipality, Commonwealth or Federal laws. This project was started in 2015 and is continuing as time permits.

Municipal Separate Storm Sewer System (MS4)

The Municipal Separate Storm Sewer System, otherwise known as MS4, is an initiative started by the Environmental Protection Agency (EPA) to enforce the 1972 Clean Streams Act. The enforcement is through the Commonwealth’s Department of Environmental Protection (DEP). Under MS4, each municipality in the Commonwealth is mandated to update their storm sewer system to control flooding pollution and sediment reduction. This is necessary to prevent storm water infiltration to the sanitary system of a community. This is an expensive project and will take years to realize. Under Commonwealth legislation, Home Rule Chartered communities are permitted to enact a flat fee to support MS4 expenses without creating a storm water management district. Council passed the Pollution Control and Flood Reduction Ordinance in October 2018. The ordinance enacted legislation to assess a \$120 fee per year on residential property based on an average 2,385 square feet of impervious surface . Commercial property is based on multiples of 2,385 square feet of impervious surface. Houses of worship have been given a 25% per year discount.

Capital Improvement Program (CIP)

Currently, the Municipality funds its Five (5) Year Capital Improvement Program (CIP) through a pay-as-you-go system. The Municipality transfers \$1 million from the General Fund into the Capital Improvement Fund each year during the month of July. However, this amount is insufficient for a community the size of Monroeville. The Municipal Manager has recommended that a 1-mill tax increase be adopted under ordinance exclusive for capital expenditures. This would infuse ~\$2.3 mil. into the CIP. Council has discussed this option, but no decision has been made as of yet.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Municipality of Monroeville for its Comprehensive Annual Financial Report for the year ended December 31, 2019. This is the twenty-eighth consecutive year that the Municipality has received this prestigious award. In order to be awarded a Certificate of Achievement for Excellence, the Municipality must publish an easily readable and efficiently organized Comprehensive Annual Financial Report whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

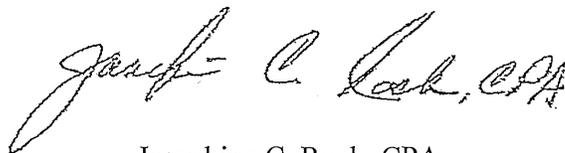

A Certificate of Achievement for Excellence is valid for a period of one year only. We believe that our current report continues to conform to the Certificate of Achievement for Excellence Program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

ACKNOWLEDGMENTS

The production of this report was made possible through the efforts of a variety of individuals. The work and cooperation of the Municipality's administrative staff was instrumental in the completion of this project. I also wish to acknowledge the efforts of the Mayor, Municipal Council and the Manager for their support and encouragement. As in other endeavors, they have made a commitment to ensure that the financial operations of the Municipality are conducted in a progressive and responsive manner.

Respectfully submitted,

Independent Auditor's Report

Honorable Mayor and Members of Council
Municipality of Monroeville
Monroeville, Pennsylvania

Dear Mayor and Members:

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Municipality of Monroeville, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Municipality's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Municipality's preparation and

Auditor's Responsibility (Cont'd)

fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Municipality's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Municipality of Monroeville, as of December 31, 2020, and the respective changes in financial position thereof, and the respective budgetary comparison for the General Fund and the Pollution Control and Flood Reduction Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and pension and other post-employment benefit information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Matters (Cont'd)

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Municipality of Monroeville's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, additional information and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and additional information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and additional information are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

**MANAGEMENT'S DISCUSSION AND
ANALYSIS**

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Monroeville Comprehensive Annual Financial Report presents a narrative overview and analysis of the Municipality's financial performance for the fiscal year ended December 31, 2020. Please read this management and discussion in conjunction with the preceding transmittal letter and the accompanying financial statements and notes which follow in order to obtain a thorough understanding of the Municipality's financial condition at December 31, 2020.

FINANCIAL HIGHLIGHTS

- The Municipality's net position increased by \$4,037,842 in 2020 or 32.41%.
- During 2020, the Municipality's bond rating was Aa2 with a positive outlook, according to Moody's Investor Service. More detailed information about the Municipality's general long-term debt activity can be found in Note 6 of the notes to financial statements.
- At December 31, 2020, the Municipality had \$8.2 million of gross bond debt and \$8.5 million of net debt outstanding. This represents a decrease of \$2,930,000 or 26.3% from the previous year. The Municipality also had \$455,443 of capital leases payable at December 31, 2020. This represents a burden of \$316 per capita to bonded debt.
- The total fund balance of the general fund at December 31, 2020 was \$21,220,896. The unassigned portion of the fund balance was \$19,508,304, which is approximately 60.5% of revenues in the general fund for fiscal year 2020, an increase of 10.0%.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of this report consists of three parts: management's discussion and analysis, the basic financial statements (including notes to the financial statements) and combining and individual fund statements with detailed budgetary comparison schedules. The basic financial statements present two different views of the Municipality through the use of government-wide statements and fund financial statements:

- The first two statements (Pages 1-2) are government-wide financial statements that provide long-term and short-term information about the Municipality's overall financial status, as well as the financial status of its component units.
- The remaining statements (Pages 3-12) are fund financial statements that focus on individual parts of municipal government, reporting operations in more detail than the government-wide statements.
 - The governmental funds statements describe how general government services such as public safety and recreation were financed.

- Fiduciary fund statements provide information about the retirement plans and post-employment benefits for municipal employees in whom the Municipality acts solely as a trustee or agent for the benefit of others. Fiduciary funds are not reflected in the government-wide statements because the resources cannot be used to support municipal activities.

The financial statements include notes that provide an explanation for certain information in the financial statements and also provide more detail of this information. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and how they relate to one another. In addition to these required elements, a section with combining statements provides details about the non-major governmental funds that are presented in single columns in the basic financial statements.

GOVERNMENT-WIDE STATEMENTS

The government-wide statements report information about the Municipality as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the Municipality's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Municipality's net position and how they have changed. The statement of net position includes all of the municipality's assets, deferred outflow of resources, liabilities and deferred inflows of resources, except fiduciary funds. Net position—the difference between the Municipality's assets, deferred outflows of resources and liabilities, deferred inflows of resources—is one way to measure the Municipality's financial health or position. Over time, increases or decreases in the Municipality's net position is an indicator of whether its financial health is improving or deteriorating. The statement of activities focuses on how the Municipality's net position changed during the year. Additional non-financial factors such as changes in the Municipality's real property tax base and general economic conditions must be considered to assess the overall position of the Municipality. The primary features of government-wide financial statements are reflected in Figure A-3.

Figure A-3
Government-Wide Financial Statements

The Municipality's government-wide financial statements are divided into two categories:

- *Governmental activities*—Most of the Municipality's basic services are included here, such as the police, fire, public works, recreation departments and general administration. Property, business, and earned income taxes, charges for services, and state grants finance most of these activities.
- *Component unit*—The Municipality includes the Monroeville Convention Visitors Bureau.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the Municipality's most significant funds, not the Municipality as a whole. Funds are accounting groups that the Municipality uses to keep track of specific sources of funding and spending for particular purposes.

Some funds are required by State law. The Municipality has two kinds of funds:

- *Governmental funds* - Most of the Municipality's basic services are included in governmental funds, which focus on (1) how cash and other financial assets can readily be converted to cash flow in and out, and (2) the balances left at year end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Municipality's programs. The relationship between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that follows the governmental fund financial statements.
- *Fiduciary funds* - The Municipality is the trustee, or *fiduciary*, for two, single-employer pension plans: general employees and police, and an employee benefit trust fund. These plans cover essentially all full-time employees. The Municipality is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the Municipality's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the Municipality's government-wide financial statements because the Municipality cannot use these assets to finance its operations.

The Municipality's net position at December 31, 2020 and 2019 is presented below:

GOVERNMENTAL ACTIVITIES

The following chart graphically depicts the government-wide sources of revenues for the fiscal year ended December 31, 2020:

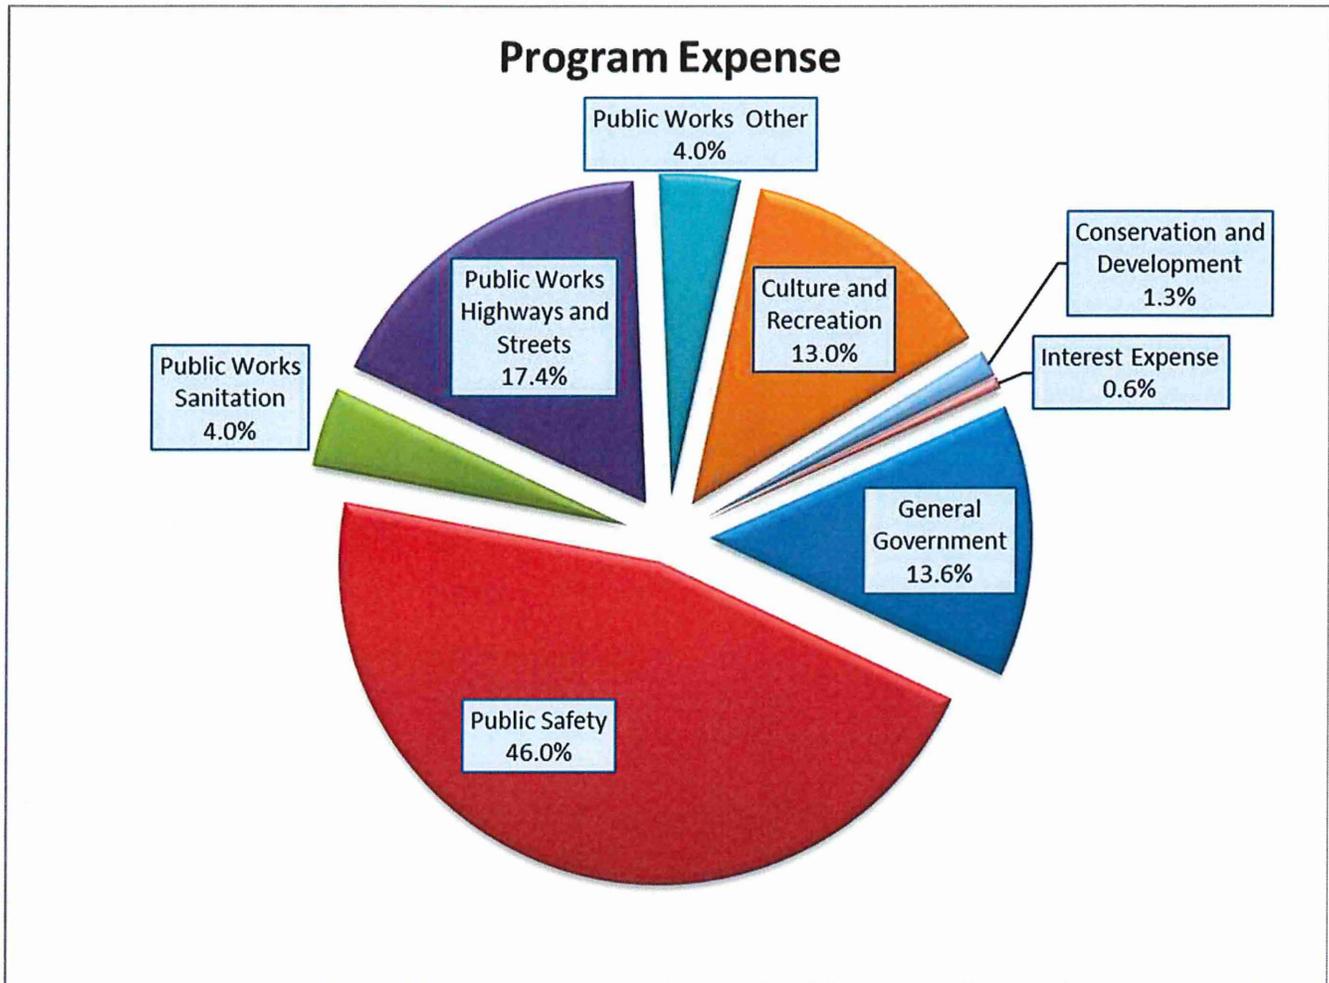

The revenue decrease of \$876,342 or 2.3 % was mainly due to a reduction in overall revenues, especially business privilege and mercantile. This was due to the shut down and limited operating capacity of business resulting from the COVID – 19 pandemic.

Program Expenses:

Total expenses for all programs in 2020 were \$33.5 million. The expenses reflect the delivery of a wide range of services with the largest being public safety at 46.0%. The second largest program area was public works (highways and streets) at 17.4%, followed by general government at 13.6%, culture and recreation at 13.0%, public works (sanitation) at 4.0%, public works (other) at 4.0%, conservation and development at 1.3% and interest expense at .6%.

The following chart graphically depicts the government-wide program expenses for the fiscal year ended December 31, 2020:

There was an increase in net position in 2020 of \$4,037,842 partially due of the decrease in expenses. But also attributing to the increase in net position was the proceeds the Municipality received from the sale of the Municipal community pool due to the eminent domain takeover of the property by the Pennsylvania Turnpike Commission which resulted in proceeds of \$956,000.

The expenses decreased from the prior year by \$(3,456,949) or -9.36%. The largest decrease was due to a reduction in spending for culture and recreation in the amount of \$(1,411,216), general government had a decrease of \$(519,562) and a decrease public safety of \$(1,041,264). All of the decrease was due to the effects on the economy by COVID-19.

Net Program Expenses/Revenues:

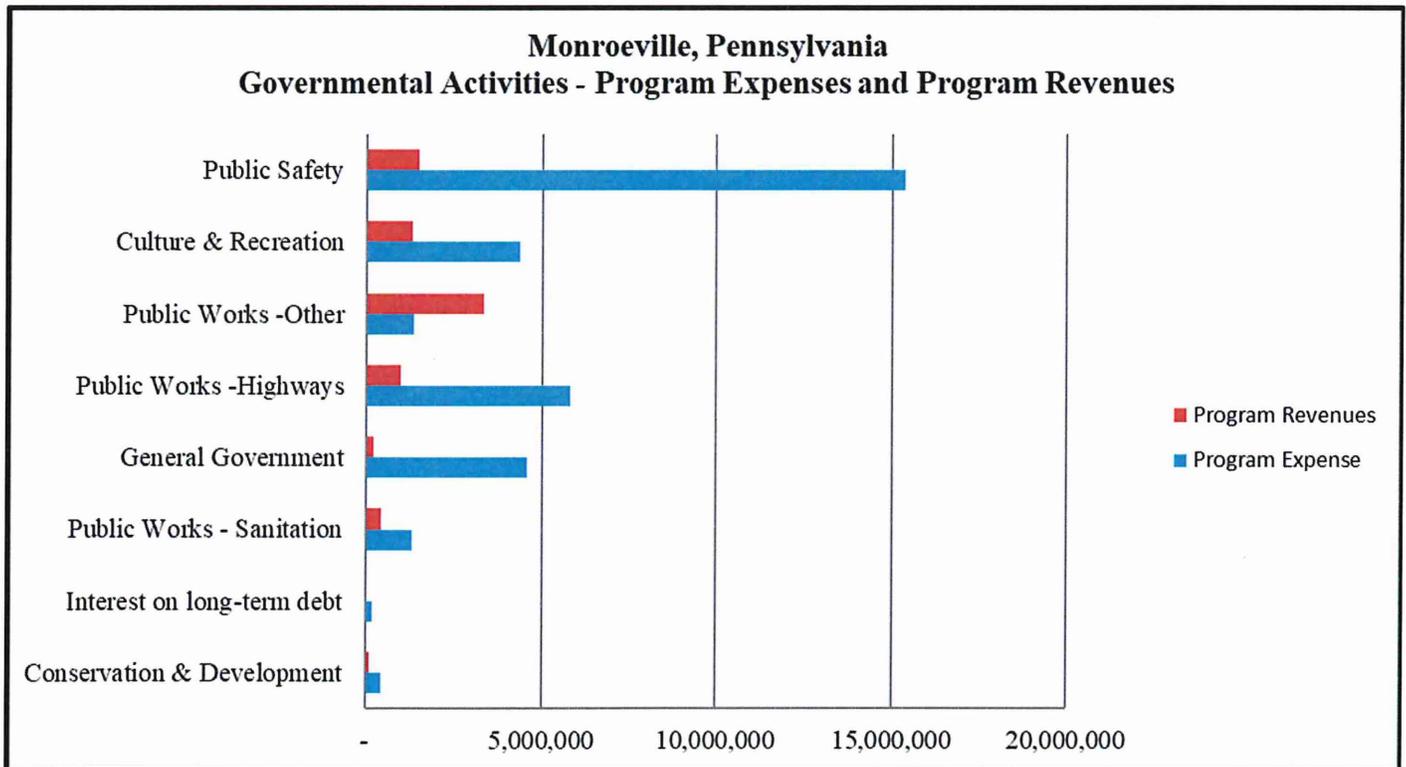

Net program expenses/revenues indicates the amount of support required from taxes and other general revenues for the year. The following table details the change between years:

Net Program Expense/Revenues

Primary Government:	2020	2019	Inc(Dec)
General Government	\$ (4,349,646)	\$ (4,926,946)	\$ (577,300)

Total Net Expenses	\$ (25,601,794)	\$ (28,552,621)	\$ (2,950,827)

Public safety expenses required the most general revenue for support, requiring \$13.9 million in 2020. General government required \$4.3 million, while public works required \$3.7 million in general revenues, culture and recreation required \$3.0 million, and all others required \$.5 million.

The following chart graphically depicts the net program expenses/revenues by function/program for the fiscal year ended December 31, 2020:

FINANCIAL ANALYSIS OF THE MUNICIPALITY'S FUNDS

As the Municipality completed the year, its governmental funds reported a combined fund balance of \$23.6 million of which \$21.2 million is the general fund, \$3.1 million is the PCFR fund \$(2.1) million is in the Capital Improvement Fund, and \$1.4 million is for all other governmental funds. This represents an increase of \$3.7 million from 2019. Of this combined fund balance total, \$19.5 million or 91.9% represents unassigned fund balance, meaning it is available to meet the Municipality's current and future needs. The fund balance has restrictions to indicate \$1.0 million of fund balance is not available for new spending because it has been committed to fund capital projects and other special revenue funds.

The general fund fund balance increased by \$2,794,338 due to the decrease in expenditures for 2020 and the proceeds received of \$956,000 from the eminent domain takeover of the Municipal pool property by the Pennsylvania Turnpike Commission.

The Capital Improvement Fund reported a decrease in fund balance of \$(1,050,181). The amount budgeted for Capital Improvement Fund transfers was \$2,500,000. The actual transfer was \$1,000,000. Due to the uncertainty of the economic effect of COVID-19.

The PCFR fund reported an increase in fund balance of \$1,686,941. This was the second year of the operation of this fund and the second year the fee was assessed to property owners.

General Fund Budgetary Highlights

The budgetary results of 2020 demonstrate that the Municipality has been able to fund operations and capital items mostly through current revenues. The chart below shows the operating results of General Fund for 2020:

	Final Budget	Actual	Variance (Unfavorable)
Revenues	\$ 32,217,434	\$ 32,259,512	\$ 42,078
Expenditures	33,524,919	29,481,379	4,043,540
Excess of Revenues Over Expenditures	(1,307,485)	2,778,133	4,085,618
Transfers, net and other sources	(2,500,000)	16,205	2,516,205
Net change in fund balance from operations	\$ (3,807,485)	\$ 2,794,338	\$ 6,601,823

The proposed usage of fund balance for the 2020 budget was \$3,298,685 to support 2020 operations and capital projects. The year ended with an increase in fund balance thus avoiding any use of fund balance.

There were several differences between the adopted original budget and the actual revenue and expenditures for the year.

The most significant positive changes in revenue were due to higher than expected real estate transfer tax by \$513,766 because of a combination of the sale of larger commercial properties and the robust activity in the real estate market. Mercantile and business privilege tax were \$321,940 higher than expected because of continued collections efforts.

The expenditure budget was \$4,043,540 under the budgeted amount. The most significant decreases were Public Safety by \$1,317,082 with wages experiencing the largest decrease. Public Works – Highways was reduced by \$1,316,736, of that reduced amount \$800,389 because liquid fuels expenses are budgeted in the general fund and paid by the Highway Aid fund.

OTHER FUNDS

Capital Project Fund

The Capital Project Fund accounts for funds provided by the Municipality, most frequently from General Fund transfers. Of the \$1.9 million in capital expenditures during 2020, \$1.4 or 73.9% was for road paving projects.

Pollution Control and Flood Reduction Fund

This fund receives exclusive monies from the Pollution Control and Flood Reduction fee that began in 2019. The revenues received from this fund were \$3.3 million. The fee is paid by all property owners in the Municipality depending upon the size of their impervious surface area, or that area in which rain fall does not penetrate. The fee is based upon an Equivalent Residential Unit (ERU). An average ERU for a residential property is 2,385 sq. ft. One (1) ERU is billed \$10/month or \$120/year. Larger impervious surface property owners pay a fee pursuant to how many ERUs their property represents. Funds expended in 2020 amounted to \$1,649,050 including \$366,714 in capital outlay. The funds collected are for the expenditures of upgrading the storm water system (pipes, retention ponds, inlets, etc.) in order to comply with the 1972 Clean Streams law.

CAPITAL ASSET AND DEBT ADMINISTRATION

More detailed information about the Municipality's capital assets can be found in Note 5 of the notes to financial statements.

Long-term Debt

On December 31, 2020, the Municipality had \$8.2 million of debt outstanding. This represents a decrease of \$2,930,000 or 26.3%, from the previous year. The following details activity related to general obligation bonds during 2020:

Summary of General Obligation Bond Activity

Balance at January 1, 2020	\$	11,155,000
Retirement		2,930,000
Additions		-
Balance at December 31, 2020	\$	8,225,000

Other long-term obligation includes compensated absences payable and capital leases payable. The Municipality at December 31, 2020 has \$.4 million in capital leases payable.

More detailed information about the Municipality's long-term debt can be found in Notes 6 and 7 of the notes to financial statements.

TRUST AND AGENCY OPERATIONS

Pension Trust Funds and Other Employee Benefit Trust Funds

Monroeville has two pension plans – general employees and police and in 2009 created an OPEB Trust Fund. Municipal involvement in the administration of the police pension plan is the establishment of the investment policy and the calculation of benefits for retirees, which are then paid by the trustee. During 2020, Police Pension Plan net position increased \$2,792,296 to \$50,444,032 and the OPEB Trust Fund assets decreased \$(732,659) to \$1,896,348.

During 2020, employer contributions were required for both pension plans in the amount of \$3,683,429. In the non-uniform employees and police pension plans, the net pension (asset) liability was \$(1,442,418) and \$7,113,150 respectively. The required supplementary information located at the conclusion of the Notes to Financial Statements provides the details on the Pension and OPEB Trust Plans.

Bond Ratings

Moody's Investor Service increased the bond rating in October 2020 from Aa3 to Aa2 for the Municipality. This positive outlook reflects Moody's view that the Municipality's positive financial trend will continue over the near term. More detailed information about the Municipality's general long-term debt activity can be found in Notes 6 and 7 of the notes to financial statements.

Reconciliation of the Governmental Funds Balance Sheet
to the Statement of Net Position
December 31, 2020

Total Fund Balances - Governmental Funds \$ 23,618,185

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds. The cost of assets is \$77,148,925, and the accumulated depreciation is \$50,665,534. 26,483,391

Property tax receivables are not available to pay for current period expenditures and, therefore, are reported as unavailable revenues in the funds. 2,193,018

Deferred charges and premiums on bonds issued and refunded are capitalized and amortized over the life of the bonds in the statement of net position. (152,684)

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:

Bonds Payable	\$(8,225,000)	
Capital Leases Payable	(455,443)	
Accrued Interest on the Bonds	(25,714)	
Compensated Absences	(816,171)	
Other Post-Employment Benefits	<u>(40,365,190)</u>	(49,887,518)

Some assets and liabilities including net pension obligations, are not due and payable in the current period and, therefore, are not reported in the funds.

to the Statement of Activities
Year Ended December 31, 2020**

Total Net Change in Fund Balances - Governmental Funds	\$ 3,712,677
--	--------------

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeds capital outlays in the period.

Depreciation Expense	\$(2,757,788)	
Capital Outlays	790,365	
Net Book Value of Assets Retired	<u>(97,664)</u>	(2,065,087)

Property tax revenues that do not provide current financial resources are not reported as revenues in the funds.	17,549
--	--------

Repayment of bond and capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	3,110,820
--	-----------

In the statement of activities, certain operating expenses - compensated absences (sick pay and vacations) and other post-employment benefits (OPEB) - are measured by the amounts earned during the year. In governmental funds, however, expenditures for the items are measured by the amount of financial resources used (essentially, the amounts actually paid).

Compensated Absences	32,383	
Net Other Post-Employment Benefit Obligation	<u>(2,641,201)</u>	(2,608,818)

Changes in the net pension liability and related deferred inflows and outflows of resources do not affect current financial resources and, therefore, are not reflected on the fund statements.	1,811,750

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.

Net Change in Accrued Interest on the Bonds	\$ 10,074

Note 1 - Summary of Significant Accounting Policies

A. Reporting Entity

The Municipality of Monroeville, Pennsylvania (Municipality), a home rule charter Municipality since May 21, 1974, is located in Allegheny County, Pennsylvania, approximately ten miles east of the City of Pittsburgh. The Municipality, governed by an elected council and mayor, provides the following services as authorized by its home rule charter: public safety, highways and streets, sanitation, culture and recreation, planning and zoning, and general administrative services.

The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable.

Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the government. Each discretely presented component unit has a December 31 year-end.

Discretely Presented Component Unit

Convention Visitor's Bureau of Greater Monroeville

The Convention Visitor's Bureau of Greater Monroeville (Bureau) is a non-profit organization designed to stimulate and increase the volume of conventions and visitors within the Municipality. The Bureau's Board consists of seven voting members and one nonvoting member, which are appointed by Municipal Council. The Bureau, via a Municipal ordinance, is the designated agent of the Municipality for use of Allegheny County Hotel/Motel tax funds. Annually, the Bureau's Board submits a financial plan to Municipal Council for approval. Monthly requests for transfer of funds are submitted to the Municipal finance department. Separate financial statements are not issued.

Other

The Monroeville Municipal Authority is a related organization of the Municipality because the Municipal Council appoints the majority of the governing body. However, the Municipality is not financially obligated for, nor does it financially benefit from, the activities of this entity and the Authority is not considered a component unit.

Note 1 - Summary of Significant Accounting Policies (Cont'd)

B. Description of Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Municipality and its component units. All fiduciary activities are reported only in the fund financial statements. For the most part, the effect of interfund activity has been removed from these statements. Exceptions to this general rule are charges between the Municipality's governmental funds and its component units. Elimination of the charges would distort the direct costs and program revenues reported in the various functions. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately. Likewise, the primary government is reported separately from certain legally separate component units for which the government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Basis of Presentation - Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As discussed earlier, the government has one discretely presented component unit. While the Bureau is not considered to be a major component unit, it is nevertheless shown in a separate column in the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Municipality of Monroeville
Notes to Financial Statements
December 31, 2020

Note 1 - Summary of Significant Accounting Policies (Cont'd)

D. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate statements for each fund category - governmental and fiduciary - are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Governmental Funds

The Municipality presents the following major governmental funds:

The *General Fund* is the general operating fund of the Municipality. It is used to account for all financial resources except those required to be accounted for in another fund.

The *Pollution Control and Flood Reduction Fund* is used to account for expenditures of upgrading the stormwater system. Funds for this fund are from a fee assessed to all property owners based on the size of their impervious surface area. The fee is based upon an Equivalent Residential Unit (ERUC), the fee is one-hundred twenty (\$120) a year for one ERU.

The *Capital Improvements Fund - Capital Projects Fund* is used to account for expenditures related to the Municipality's capital improvements program. Funds for this project were received from transfers from the general fund and capital lease proceeds.

Additionally, the Municipality reports the following fund types as Other Governmental Funds:

The *Special Revenue Funds* focus on revenues that are restricted or committed to specific purposes. Their revenues serve as the foundation for those funds.

The *Capital Projects Funds* are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

Fiduciary Funds

The *Police Pension Fund* and *Other Post-Employment Benefits Trust Fund* are used to account for assets held by the Municipality in a trustee capacity. The funds are accounted for using the economic resources measurement focus and the accrual basis of accounting.

Note 1 - Summary of Significant Accounting Policies (Cont'd)

D. Basis of Presentation - Fund Financial Statements (Cont'd)

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes, net of any uncollectible amounts, are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days

E. Measurement Focus and Basis of Accounting (Cont'd)

of the end of the current fiscal period. Property taxes levied but collected beyond 60 days after year end are recorded as deferred revenue to be recognized as revenue when the taxes are collected. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital assets acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, intergovernmental revenues, investment income, rent and certain miscellaneous revenues associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. In applying the susceptible to accrual concept to intergovernmental revenues (state and federal sources), the legal and contractual requirements of the individual programs are used as guidance. There are however, essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the Municipality; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditures. All other revenue items are considered to be measurable and available only when cash is received by the government.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

F. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the Municipality.

G. Investments

Investments are reported at fair value. Funds are invested in accordance with the Municipality's investment policy guidelines as described in Note 2.

H. Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide financial statement of net position but are not reported in the fund financial statements. In accordance with GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, infrastructure has been retroactively capitalized.

All capital assets are capitalized at cost. The Municipality maintains a capitalization threshold of \$5,000 for all capital assets. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

All reported capital assets, except for land and construction-in-progress, are depreciated. Depreciation is computed using the straight-line method, over the following useful lives:

Assets	Years
Land Improvements	20-30
Buildings and Improvements	7-100
Infrastructure	8-50
Machinery, Equipment, Furniture and Vehicles	3-20

Depreciation expense is allocated among the expense program functions.

I. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The government has two items that qualify for reporting in this category. One is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other items in the government-wide statement of net position are related to the defined benefit pension plans and OPEB plan.

I. Deferred Outflows/Inflows of Resources (Cont'd)

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source: property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The items in the government-wide statement of net position are related to the defined benefit pension plans and OPEB plan.

J. Compensated Absences

Under the terms of the collective bargaining agreement between the Municipality and the Monroeville Police bargaining unit, officers are allowed to accumulate compensatory time up to a maximum of 480 hours except, employees hired after July 21, 2005 can accumulate up to a maximum of 360 hours. Accumulated compensatory time may be taken at the time of an officer's retirement or he/she may elect to receive compensation totaling the dollar value of accumulated compensatory time. In addition, the police officers, as well as the Municipal employees, are entitled to be paid for any unused sick days at a rate of between \$50-\$100 per day upon termination. Accumulated benefits for compensatory time and for unused sick days are accrued and reported on the government-wide financial statements.

K. Budgets and Budgetary Accounting

Annual appropriated budgets are adopted for the General Fund and two Special Revenue Funds (Pollution Control and Flood Reduction Fund and Highway Aid Fund). These budgets are adopted on a basis consistent with generally accepted accounting principles. Budgetary controls for the Trust Funds are maintained by the provisions of the funds as implemented by its respective governing board. The Police Asset Seizure Fund activity is governed by the federal and state provisions imposed on those funds. The Sidewalk Fund is governed by the ordinance that established the fund. The Northern Pike Improvements Fund is governed by the development agreement that funded the project. The Capital Improvements Fund and the Public Safety Communication Fund are governed by the debt, lease agreements and/or resolutions that funded those projects. Regarding the discrete component unit, it passes a "flexible budget" which is not a legally appropriated operating budget.

K. Budgets and Budgetary Accounting (Cont'd)

The Municipality uses the following procedures in establishing the budgetary data reflected in the financial statements as prescribed in the Municipality's Home Rule Charter:

At least 45 days prior to the beginning of each fiscal year, the Manager shall submit to the Members of Council (Council) a proposed budget for the ensuing fiscal year and an accompanying message.

Council shall publish within a period of eight days of receipt from the Municipal Manager, in one or more newspapers of general circulation in the Municipality, a general summary of the budget and a notice that the proposed budget is available for public view, also stating the times and places where copies of the budget and the message are available to the public and the times and places of the required public hearing on the budget and such other public hearings as the Council may decide to hold.

Council shall hold a minimum of two public hearings on the budget at which time residents of the Municipality may express their views on the proposed budget. The first such hearing shall not be less than 14 days nor more than 21 days after the date of publication. The second public hearing shall not be less than seven days nor more than 14 days after the first hearing.

Council shall adopt the budget as presented or amended, by ordinance on or before the 31st day of the twelfth month of the fiscal year currently ending.

Council may amend the budget by ordinance during the fiscal year for which the budget was adopted as long as the amendment does not result in expenditures exceeding available resources. The budget information presented encompasses all budget amendments. There were supplemental appropriations of \$8,800 in 2020. Any excess appropriation lapses at the end of the fiscal year. Management is authorized to transfer budgeted amounts between departments without Council approval provided that such transfers do not alter total expenditures approved by Council or exceed estimated revenues, additional appropriations require Council approval. Therefore, the legal level of control over expenditures for all budgeted funds is the surplus or deficit of the fund as a whole.

L. Equity Classifications

Government-Wide Statements

Net position is divided into three components:

Net investment in capital assets - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of those assets.

Restricted - consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments, or (2) law through constitutional provisions or enabling legislation.

Unrestricted - all other net position that do not meet the definition of "restricted" or "invested in capital assets net of related debt".

Fund Statements

In accordance with Governmental Accounting Standards Board Statement No. 54, fund balance reporting and governmental fund type definitions, the Municipality classifies governmental funds balances as follows:

Nonspendable - amounts that cannot be spent because they are either (1) not in a spendable form or (2) legally or contractually required to remain intact.

Restricted - the part of fund balance that is restricted to be spent for a specific purpose. The constraints on these amounts must be externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or by enabling legislation. Enabling legislation authorizes the government to assess, levy, change or mandate payment and includes a legally enforceable requirement on the use of these funds.

Committed - the portion of fund balance that can only be used for specific purposes as a result of formal action by the Municipality's highest level of authority, Council. Once the item is committed, it cannot be used for any other purpose unless changed by the same procedures used to initially constrain the money, which is the passage of a resolution.

L. Equity Classifications (Cont'd)

Fund Statements (Cont'd)

Assigned - reflects the Municipality's intent to use the money for a specific purpose but is not considered restricted or committed. The Authority to make assignments of fund balance may only be made by Council through the passage of a resolution. The assignment cannot exceed the available spendable unassigned fund balance in any particular fund.

Unassigned - represents the part of spendable fund balance that has not been categorized as restricted, committed or assigned. The general fund is the only fund permitted to have a positive unassigned fund balance.

The Municipality's informal policy is that it considers restricted amounts to have been spent first when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. It also considers committed amounts to be spent first when an expenditure is incurred for purposes for which both committed and unassigned fund balance could be used.

The Municipality's current fund balance policy for the general fund provides there shall be maintained an unassigned fund balance equivalent to a minimum of ten (10%) percent of the current year's total budgeted expenditures less capital outlay and transfers.

The nonspendable fund balance of \$74,796 in the general fund is for prepaid items.

The purpose of the restricted, committed and assigned fund balances as of December 31, 2020, is as follows:

	General Fund	Pollution Control and Flood Reduction Fund	Nonmajor Funds
<u>Restricted Fund Balance</u>

M. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Note 2 - Deposits and Investments

Pennsylvania statutes provide for investment of governmental funds into certain authorized investment types including U. S. Treasury bills, other short-term U. S. and Pennsylvania government obligations, and insured or collateralized time deposits and certificates of deposit. The statutes do not prescribe regulations related to demand deposits; however, they do allow the pooling of governmental funds for investment purposes.

In addition to the investments authorized for governmental funds, fiduciary fund investments may also be made in corporate stocks and bonds, real estate and other investments consistent with sound business practice.

The deposit and investment policy of the Municipality adheres to state statutes and prudent business practice. Investments are reported at fair value. Fair value is based on quoted market prices. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair value. There were no deposit or investment transactions during the year that were in violation of either their state statutes or the policy of the Municipality.

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in an event of a bank failure, the government's deposits may not be returned to it. The Municipality nor its component units do not have a deposit policy for custodial credit risk. Deposits in excess of amounts covered by the Federal Deposit Insurance Corporation are collateralized in accordance with Act 72 of 1971 of the Pennsylvania State Legislature which requires the institution to pool collateral for all governments and have the collateral held by an approved custodian in the institution's name. As of December 31, 2020, \$7,698,327 of the Municipality's bank balance of \$8,229,468 was exposed to custodial credit risk as follows:

Uninsured and Collateral Held by Pledging

Bank's Agent not in the Municipality's Name	<u>\$7,698,327</u>
---	--------------------

As of December 31, 2020, none of the component unit's bank balances were exposed to custodial credit risk.

The money market funds maintain an average maturity that is less than sixty days.

Of the total investments above, \$50,558,104 and \$7,745,801 are reported in the Municipality's Fiduciary Pension Trust Fund and OPEB Trust Fund, respectively. The balance is reported in its governmental funds.

Investments

Interest Rate Risk - The Municipality does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risks - Pennsylvania statutes authorize the type of investments allowed and are described above. The Municipality has no investment policy that would further limit its investment choices. The Municipality's investments, excluding its common stock, mutual funds and U. S. government guaranteed obligations, are rated by nationally recognized statistical rating organizations Moody's and Standard and Poor's (S & P) as follows:

Concentration of Credit Risk - The Municipality places no limit on the amount it may invest in any one issue and the governmental funds had no investment in excess of 5% of its total investments.

The Municipality's component unit, the Convention Visitor's Bureau, follows the same policies as the Municipality as it relates to the types of investments authorized, interest rate risk, credit risk and concentration of credit risk.

The only investment as of December 31, 2020, was \$928,373 in the PLGIT money market account held by the Convention Visitor's Bureau.

The Pennsylvania Local Government Investment Trust (PLGIT) was established as a common law trust, organized under laws of the Commonwealth of Pennsylvania and the provision of the Intergovernmental Cooperation Act. Shares of the Fund are offered to certain Pennsylvania school districts, intermediate units, area vocational-technical schools and municipalities. The purpose of the Fund is to enable such

Investments (Cont'd)

governmental units to pool their available funds for investments. The Trust is governed by an elected board of trustees who are responsible for the overall management of the Trust. The trustees are elected from the several classes of local governments participating in the Trust. The Trust is audited annually by independent auditors. The fund is a local government investment pool and is exempt from the requirement of SEC's Rule 2(a)7 of the Investment Company Act of 1940. The fund measures for financial reporting purposes its assets at amortized cost and maintains a stable net asset value of \$1 per share. Accordingly, the fair value of the position in PLGIT is the same as the value of the PLGIT shares. There are no limitations or restrictions on withdrawals.

The Municipality categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Municipality has the following recurring fair value measurements as of December 31, 2020:

Investments by Fair Value Level	Totals	Fair Value Measurements

Note 7 - Capital Leases

The Municipality has entered into lease agreements as lessee for financing the acquisition of vehicles and fire equipment. The lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of the future minimum lease payments as of the inception date. The capital leases are typically liquidated by the general fund.

The assets acquired through capital leases are as follows:

Note 8 - Interfund Balances

Interfund balances at December 31, 2020, were as follows:

Fund	Interfund Receivable	Interfund Payable
General	\$5,358,446	\$ -
Capital Improvement Fund	-	4,345,312
Pollution Control and Flood Reduction Fund	-	999,374
Nonmajor Funds	-	<u>13,760</u>
	<u>\$5,358,446</u>	<u>\$5,358,446</u>

Balances resulted from the time lag between dates that: (1) interfund goods and services are provided or reimbursable expenditures occur; (2) transactions are recorded in the accounting system; and (3) payments between funds are made. Payments to vendors are made from the General Fund for expenditures charged to other funds and those funds reimburse the General Fund. All balances are expected to be paid within one year.

Note 9 - Interfund Transfers

For the year ended December 31, 2020, interfund transfers consisted of the following:

The General Fund transferred \$1,000,000 to the Capital Improvements Fund to fund certain capital projects throughout the Municipality and \$142,568 to the Highway Fund to reimburse that fund for certain capital expenditures. The Police Safety and Communication Fund, a nonmajor fund, transferred \$101,112 to the General Fund. That fund was closed, and the remaining balance was returned to the General Fund.

Note 10 - Pension Plans

Plan Description and Eligibility

The Municipality administers two defined benefit pension plans covering full-time employees, the Non-Uniform Pension Plan and the Police Pension Plan (Plans). Both Plans operate under the authority of various Municipal ordinances. The Non-Uniform Pension Plan is affiliated with the Pennsylvania Municipal Retirement System (PMRS), an agent multiple-employer plan, and the Police Pension Plan is a single-employer plan. Plan provisions are established by Municipal ordinance with the authority for

Municipal contributions required by Act 205 of the Commonwealth (Act). Both receive biennial actuarial valuations. The Police Pension Plan does not issue stand-alone financial statements. PMRS issues a publicly available financial report that includes financial statements and required supplementary information. That report can be obtained by writing PMRS at P. O. Box 1165, Harrisburg, PA, 17108.

Any member of the police force employed on a full-time basis by the Municipality is eligible to participate in the Police Pension Plan. A police officer has a vested right to pension benefits upon having completed 12 years of service. Eligibility for the normal retirement benefit is age 55 and 25 years of service. The monthly pension benefit is 50% of final monthly average wage plus service increment, if any. Final monthly average wage for participants hired prior to January 24, 2001 is defined as compensation average over the highest 36 months out of the final 60-month period prior to retirement. For participants hired after January 24, 2001, final monthly average is defined as compensation averaged over the final 36-month period prior to retirement. The Police Pension Plan also provides for disability benefits, for total and permanent disablement, that occurs in the line of duty. The monthly disability benefit is 50% of the participant's final monthly average wage at disablement, but not less than 50% of the member's salary at the time the disability was incurred, offset by social security disability benefits. In the event of death before retirement eligibility, contributions are refunded with credited interest.

Employees of the Municipality who are full-time and certain permanent part-time employees and not covered by another Pension Plan are eligible to participate in the Non-Uniform Pension Plan after six months of continuous service. Pension benefits become vested after the completion of 10 years of service. Eligibility for the normal retirement benefit is age 65, or if hired prior to September 1, 1982, an employee may retire with 20 years of service regardless of age. The pension benefit formula is based upon 2% per year of service of the Final Average Salary (FAS - average annualized salary for last three years). The maximum benefit is limited to 65% of FAS. A member may select a reduced joint annuitant benefit at retirement. Otherwise, the present value of the accrued benefit will be paid to the beneficiary if an active member is eligible for retirement at the time of death. A disability benefit is provided in the Plan. If the disability is service related, the benefit is 50% of FAS. For non-service related disability with ten years of service, the benefit is 30% of FAS.

The employer follows the funding policy prescribed by Act 205 of 1984 (as amended), which requires that annual contributions be based upon the Minimum Municipal Obligation (MMO) using the Plan's most recent biennial actuarial valuation. The MMO includes the normal cost, estimated administrative expenses and an amortization contribution of the unfunded actuarial accrued liability, less estimated member contributions, and a credit equal to 10% of the excess (if any) of the actuarial value of assets over the actuarial accrued liability. The state provides an allocation of funds which must be used for pension funding. Any financial requirement established by the MMO which exceeds state contributions must be funded by the employer.

Plan Description and Eligibility (Cont'd)

Administrative costs, which may include but are not limited to investment management fees and actuarial services, are charged to the Plan and funded through the MMO and/or Plan earnings.

For the year ended December 31, 2020, the Municipality's annual pension cost was \$2,344,008 and \$1,339,418 for the Police and Non-Uniform Pension Plans, respectively, and was equal to the Municipality's annual required contribution.

Under the terms of the Plans, police employees are required to contribute 5% of their total earnings; the non-uniform employees are required to contribute 6% of compensation.

At December 31, 2020, participants in the Plans were as follows:

	Non-Uniform	Police
Participants		
Retirees and Beneficiaries	98	57
Active Employees	101	46
Terminated Employees Entitled to Benefits But not Yet Receiving Them	<u>0</u>	<u>3</u>

Summary of Significant Accounting Policies

Investments of the Non-Uniform Pension Plan are managed by the Pennsylvania Municipal Retirement System (PMRS). Information regarding the financial activities and financial position of the plan are prepared by PMRS.

Financial information of the Municipality's Police Plan is presented on the accrual basis of accounting. Employer contributions to the plan are recognized when due as required by the Act. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. The Police Pension Plan places no limit on the amount that may be invested in any one issuer. At December 31, 2020, the Plan had no investments (other than U.S. Government and U.S. Government guaranteed obligations, mutual funds or other pooled investments) in any one issuer that represent 5% or more of Fiduciary Net Position.

Custodial credit risk for investments is the risk that the Plan will not be able to recover the value of its investment for collateral securities that are in the possession of an outside party. The Plan has no investment policy for custodial credit risk.

Interest rate risk for investments is the risk that a change in interest rates will adversely affect the fair value of an investment. The Plan has no investment policy for interest rate risk other than the 50 percent limit on fixed income securities. The maturities of the Plan's debt investments are listed on the table below.

Money-Weighted Rate of Return

The money-weighted rate of return is calculated as a rate of return on the Police Pension Plan investments incorporating the timing and amount of cash flows. This return is calculated net of investment expenses.

The annual money-weighted rate of return on Plan investments for the measurement period is 8.03%.

There are no assets legally reserved for purposes other than the payment of Plan member benefits for the Plan.

There are no long-term contracts for contributions.

Net Pension Liability

Police

Actuarial Assumptions: The total pension liability was determined by an actuarial valuation as of January 1, 2019 and rolled forward to the reporting date using the following significant actuarial assumptions applied to all periods included in the measurement:

Inflation:	2.75%
Salary increases:	5.0% per year including inflation.
Mortality:	RP-2014 Mortality Table with rates set forward 5 years for disabled members. Mortality improvement based on the Long-Range Demographic Assumptions for the 2015 SSA's trustee report.
Expected Long-Term Rate of Return:	6.75%, applied to all periods

The long-term expected rate of return on Pension Plan investments was determined using a building-block method in which the best-estimate ranges of expected future real rates of return (expected returns, net of inflation and investment expenses not funded through the MMO) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in the target asset allocation as of December 31, 2020 are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real ROR</u>
Equity	5.0% - 7.0%
Fixed income	1.0% - 3.0%
Cash and equivalents	0.0% - 1.0%

Note 10 - Pension Plans (Cont'd)

Net Pension Liability (Cont'd)

Police (Cont'd)

Discount Rate: the discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made equal to the Minimum Municipal Obligation. Based on those assumptions, the Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members.

Therefore, the long-term expected rate of return on Pension Plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

Non-Uniform

The Non-Uniform Pension Plan's net pension liability was measured as of December 31, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2019 with liabilities rolled forward to December 31, 2019. The total pension liability in the December 31, 2019 measurement date was determined using the following actuarial assumptions, applied to all periods.

Actuarial Cost Method	Entry Age
Inflation:	2.8%
Salary Increases:	age related scale with merit and inflation component
Investment Rate of Return:	5.25%

The actuarial assumptions used in the December 31, 2015 valuation were based on the results of an actuarial experience study for the period covering January 1, 2009 through December 31, 2013 issued by the actuary in July 2015 as well as subsequent Board approved assumption changes.

Discount Rate: the discount rate used to measure the total pension liability was 5.25%.

The projection of cash flows for each underlying municipal plan, used to determine if any adjustment to the Discount Rate was required ("depletion testing"), used the following assumptions: 1) member contributions will be made at the current contribution rate, 2) participating plan sponsor contributions

will be made at rates equal to the difference between actuarially determined contribution rates and the member rate, and 3) the System's Long-Term Expected Rate of Return will be used in the depletion testing of projected cash flows. Based on those assumptions, the PMRS pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Note 11 - Other Post-Employment Benefit Plan

A. The Municipality of Monroeville administers a Single-Employer Defined Benefit Healthcare Plan (OPEB Plan). The OPEB Plan provides medical, dental, vision and life insurance at varying coverages for six groups of employees; police; administrative; clerical; library; public works and refuse employees. Benefit provisions are mostly established through negotiations between the Municipality and union or group representing the employees. The OPEB Plan does not issue a publicly available financial report.

B. Summary of Significant Accounting Policies

Basis of Accounting

The OPEB Plan financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the Plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with terms of the Plan.

B. Summary of Significant Accounting Policies (Cont'd)

Basis of Accounting (Cont'd)

Investments of the OPEB Plan are reported at fair value based on quoted market prices.

In 2009, the Municipality authorized and adopted the creation of the OPEB Trust, whereby the assets of the Plan are for the exclusive benefit of Plan members and their beneficiaries. The Plan was first funded in 2009, has been funded annually except 2012 through 2014, 2017, 2019 and 2020. It is the Municipality's intention to continue to fund the Plan in the future.

C. Plan Description and Eligibility

The eligibility and the benefits for each group are as follows:

1) Police Employees

Eligibility: Police officers hired prior to July 21, 2005

Normal Retirement Eligibility: Age 55 and 25 years of service

Early Retirement Eligibility: Age 50 and 25 years of service

Coverage: Retired police officers and their spouses

Benefits: 100% employer-paid dental, vision, and medical insurance plan (which includes prescription drug coverage) until Medicare eligibility for member and member's spouse; medical insurance benefits for member and member's spouse are converted to Medicare Supplemental at Medicare eligibility. In the event that the retiree pre-deceases his/her spouse, medical coverage continues to the spouse for life and dental/vision coverage continues to the spouse until age 65.

Officers hired after July 21, 2005 have the option at retirement to receive medical (until Medicare eligibility), dental and/or vision insurance for member, member's spouse, and qualified dependents, provided they reimburse the Municipality for the cost of the coverage.

In addition, retired officers (regardless of hire date) receive a \$15,000 life insurance policy payable to the retiree's beneficiary upon the retiree's death.

Opt-Out Provision: Eligible retirees who do not elect to obtain medical coverage through the Municipality will receive an annual payment of \$1,500 (individual) or \$3,000 (employee/spouse, parent/child or family).

5) Public Works Employees

Eligibility: Public works union members hired prior to April 19, 2007 who retire after 25 years of service or after age 62 with 10 years of service

Coverage: Retired public works employees and spouses of public works employees who retired after age 60 and 25 years of service

Benefits: 100% Employer-paid medical insurance plan (which includes prescription drug coverage) until Medicare eligibility for member and member's spouse if applicable (see above); benefit ends at each individual's Medicare eligibility. Retirees may elect to continue coverage for a spouse and/or dependent child(ren) by reimbursing the Municipality for the additional charged premium. Employees hired after April 19, 2007 have the option at retirement, to receive medical, dental and/or vision insurance for member, spouse and qualified dependent provided they reimburse the Municipality for the cost of coverage. In addition, retirees who retired with at least 10 years of service (regardless of hire date) receive a \$15,000 life insurance policy payable to the retiree's beneficiary upon the retiree's death.

Medical Plans Available: PPO Blue 1500/3000.

Opt-Out Provision: Eligible retirees who do not elect to obtain medical coverage through the Municipality will receive a monthly payment equal to 43% of the charged premium, with the premium capped at 2016 rates.

D. Investments

Investment Policy: The trust's policy in regard to the allocation of invested assets is established and may be amended by Council based on recommendations from the OPEB Trust Committee. It is the policy of the Committee to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The Committee's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the asset allocation policy:

Asset Class	Target Allocation
Domestic Equity	60%
Fixed Income	39%
Cash	<u>1%</u>
Total	<u>100%</u>

Rate of Return: For the year ended December 31, 2020, the annual money-weighted rate of return on investments, net of investment expense, was 10.63%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

E. Net OPEB Liability

The components of the net OPEB liability of the Municipality at December 31, 2020, were as follows:

Total OPEB Liability	\$42,261,538
Plan Fiduciary Net Position	<u>(1,896,348)</u>
Municipality's Net OPEB Liability	<u>\$40,365,190</u>
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability	4.49%

**Municipality of Monroeville
Notes to Financial Statements
December 31, 2020**

Note 11 - Other Post-Employment Benefit Plan (Cont'd)

F. Actuarial Assumptions

The total OPEB liability was determined through a roll-forward of the liabilities reflected in the January 1, 2020 actuarial report, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation:	2.75%
Investment Rate of Return:	7.0%, net of OPEB plan investment expense, including inflation.
Healthcare Cost Trend Rates:	Pre-65 Medical/Rx: 7.0% for 2020, decreasing by 0.50% per year to an ultimate rate of 5.0% for 2026 and later. Post-65 Medical/Rx: 5.0% Dental and Vision 3.0%

Mortality rates were based on the RP-2014 Mortality Table with 50% of blue collar adjustment and rates set forward five years for disabled lives.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of December 31, 2020, are summarized in the following table:

Asset Class	Target Allocation
Equity	5.0% - 7.0%
Fixed Income	1.0% - 3.0%
Cash	0.0% - 1.0%

Municipality of Monroeville

Note 11 - Other Post-Employment Benefit Plan (Cont'd)

F. Actuarial Assumptions (Cont'd)

Discount Rate: The discount rate used to measure the total OPEB liability was 3.0%. This is the equivalent single rate determined by applying the Long-Term Expected Rate of Return on Investments to future benefit payments for current plan members expected to be funded by Plan assets, and applying a tax-exempt, high quality municipal bond rate (estimated to be 3.0%) to benefit payments thereafter. In projecting assets, it was assumed that the Municipality will not continue to deposit to the trust annually and will pay benefits annually either from the trust or from the Municipality's general funds (in both cases these payments are incorporated as payments from the trust for purposes of determining a discount rate). Based on these assumptions, assets were projected to be available to make 2 years of projected future benefit payments for current Plan members.

G. Change in Net OPEB Liability

The Changes in the net OPEB liability of the Municipality for the year ended December 31, 2020 were as follows:

	Increases/Decreases

Note 13 - Lease

The Municipality leases office space in its administration building to a governmental entity under a noncancellable operating lease. The size of the office space is not material in relation to the complex and cost and accumulated depreciation of that space is not disclosed. Total rental income received under this lease in 2020 was \$16,200. The following is a schedule by year of future minimum rentals to be received by the Municipality under the lease at December 31, 2020:

Year Ended December 31,	Amount
2021	\$16,200
2022	16,200
2023	16,200
2024	<u>16,200</u>
	<u>\$64,800</u>

Note 14 - Operating Leases

The Municipality is committed under various leases for photocopiers. These leases are considered, for accounting purposes, to be operating leases. Total costs for such leases were \$39,738 for the year ended December 31, 2020. The Convention Visitor's Bureau, a component unit, is also committed under operating leases for office space and other office equipment. Total costs for such leases for the year ended December 31, 2020, were \$18,588. The following is a schedule by years of future minimum payments required under operating leases that have initial or remaining noncancellable lease terms in excess of one year of December 31, 2020.

Year Ended December 31,	Municipality	Convention Visitor's Bureau
2021	\$ 40,823	\$18,714

Note 15 - Risk Management

The Municipality is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors or omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not significantly exceeded commercial insurance coverage for the past three years. There were no significant reductions in insurance coverage from the prior year. The Municipality also purchases commercial insurance for its employees' health and accident insurance coverage.

Note 16 - Risks and Uncertainties

The COVID-19 outbreak in the United States caused economic uncertainties and business disruption through mandated and voluntary closings. The disruption impacted various aspects of the Municipality's operations, particularly in the Library and Recreation functions. However, the ultimate outcome of the pandemic and its effects on the financial position and activities of the Municipality cannot be determined at this time. The Municipality's staff will continue to monitor operating results to mitigate any financial impact that may occur.

Note 17 - Subsequent Events

The Board adopted an ordinance in February 2021 authorizing the incurrence on nonelector debt by the issuance on one or more general obligation notes in a combined principal amount of \$5,750,000. The purpose of the issuance is for the restructuring of some of the current municipal debt outstanding. The notes were issued on March 16, 2021.

SCHEDULE 14 DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT

December 31, 2020
(AMOUNTS EXPRESSED IN THOUSANDS)

Governmental Unit	Debt *** Outstanding	Estimated Percentage Applicable*	Estimated Share of Overlapping** Debt
Debt repaid with property taxes			
Municipality of Monroeville	8,972	100.0%	\$ 8,972
Other debt			
Gateway School District	49,304	97.81%	a 48,224
Allegheny County	1,012,287	2.89%	a 29,255
Subtotal-overlapping debt			77,479
Total direct and overlapping debt			\$ 86,451

*For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the Municipality's boundaries and dividing it by each unit's total taxable assessed value.

**Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the Municipality. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the Municipality. This process recognizes that, when considering the Municipality's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.
