APPROVED BY: _____ EXPIRATION DATE: _____

MUNICIPALITY OF MONROEVILLE
MINIMUM USE DRIVEWAY APPLICATION

Permit Required: A permit is required if your proposed driveway accesses either a Municipal roadway or a private roadway intended for Municipal acceptance (if in doubt, call) and you intend any of the following:

1. To construct a driveway where one does not currently exist (whether or not home is existing).
2. To replace an existing driveway where the slope, angle, or width will be altered.

A permit is not required to seal, repair, remove, or replace an existing driveway unless it meets item 2 above.

Instructions: Complete and return this application to the Municipality along with a sketch of the proposed driveway of an acceptable quality and a check in the amount of \$60.00 (if this is a new home there is no fee), the Municipal Representative will contact you at a later date schedule a field inspection at which time you will need to have the limits of the proposed driveway staked, painted, or otherwise sufficiently delineated.

Definition: A minimum use driveway is a residential or other driveway which is expected to be used by not more than 25 vehicles per day.

Applicant (Property Owner) Information:

Application Date: _____

Name: _____

Phone: _____

Project Address: _____

Purpose: New Drive, New Home New Drive, Existing Home Alter Existing Drive

Anticipated Start Date: _____

Completion Date: _____

General Requirements:

1. The minimum acceptable driveway width is ten (10) feet, however per Ordinance 1443 the maximum percentage of the front yard area used for a driveway must be $\leq 25\%$ for detached residential.
2. Driveways must be constructed with an all-weather wearing surface such as crushed limestone, gravel, asphalt, concrete, brick, slag and shall not be constructed of lawn, dirt, mud, or any other surface which can be tracked onto the roadway by tires.
3. The driveway shall affect the existing roadway drainage, where the roadway is curbed the driveway approach shall be installed 1.5" above the roadway or gutter grade.
4. The driveway approach shall be positioned at right angles, that is, 90 degrees, to the roadway or as near thereto as site conditions permit.
5. There shall be a minimum 20 foot distance between the nearest intersecting highway edge of pavement and the radius of the first permitted driveway.
6. The difference between the cross-slope of the roadway and the upward/ downward grade of the first ten (10) feet of the driveway shall not exceed 8%.
7. The applicant shall not use any equipment on the roadway which may damage the roadway without prior approval and protective precautions.
8. The driveway must be constructed in order to meet or maximize applicable sight distances in PennDOT publication M 950-S Section A.

By signing below the applicant certifies that they have read and will abide by the general requirements.
