AQUATIC PROGRAMS

LEARN TO SWIM PROGRAM

The American Red Cross Learn-to-Swim Program consists of six levels, which help swimmers ages 6 years and up develop their swimming and water safety skills. It is designed to give students a positive learning experience.

WHICH CLASS?

To ensure your child's success and safety in the Learn-to-Swim Program it is important to sign them up for the appropriate level. Children who have participated in the Learn to Swim Program should register according to the last class taken, based on successful completion. Each child should pass a particular level before proceeding to the next level. If you are new to the program, please see the course descriptions for each level.

PASSING CLASSES

All children learn in different ways. It is natural for participants to develop motor skills and become comfortable with water at a different pace. It is not unsuccessful for a child to return to one particular level several times before masterful completion. All children are tested to make sure that they are in the appropriate class level on the first day of class.

MISSED CLASSES

Classes missed for vacation, injury, sickness or any other reason can neither be made up, nor are they refundable. Every effort will be made to reschedule classes cancelled by the Recreation, Parks, and Human Service Department; rescheduling is not guaranteed.

CLASS DESCRIPTIONS AND PROGRAM SCHEDULES

LEVEL 1: INTRODUCTION TO WATER SKILLS

This level helps children feel more comfortable in the water. Children will learn to enjoy the water safely through submerging, floating, and elementary swimming skills.

LEVEL 2: FUNDAMENTAL AQUATIC SKILLS

Children will learn fundamental skills of swimming through combined front and backstrokes, rotary breathing, gliding, underwater swimming, and treading water. Children must be able to demonstrate entering and exiting the water unassisted, bob five times to chin level, walk or swim along the gutter, and front float assisted for 3 seconds upon entering this level.

LEVEL 3: STROKE DEVELOPMENT

This level helps to build on the skills learned in level two by providing additional guided practice. Children will learn skills such as front and back crawl, diving, breast and butterfly strokes.

LEVEL 4: STROKE IMPROVEMENT

This level builds students confidence and performance of the swimming strokes learned in level three by providing additional guided practice. Children will learn deep-water skills, endurance and distance swimming. They will also begin to learn basic water safety techniques.

LEVEL 5: STROKE REFINEMENT

This level builds on skills learned in level four by providing additional guided practice. Children will learn surface diving, turns, survival swimming, and how to increase endurance and the length of distance using previously learned strokes.
